Anti-Müllerian Hormone

Designed to complement and support TECHNOPATH's Multichem Quality Control (QC) product range.

IAMQC Software provides Laboratory Managers and Technologists with a range of QC software tools to analyze their QC results in real-time. IAMQC Software products allow users to automate, centralize and standardize QC processes in a laboratory setting. Our combination of software modules satisfy the varying levels of QC requirements in individual laboratories and are easily tailored to meet different QC management expectations.
